

**SURVEY OF HEALTH
AND WELL BEING**

N.1361	Private Households Sample
N.1362	GP Supplementary Sample

Coding Instructions

BOOKING IN CHECKS

For all long interviews, check the front page of schedule A. If the outcome is coded 01 to 05, 08 or 09, check that the dependent questions are correctly coded.

For example, if outcome on the front page is 01, you should refer back to question 11b, page 6.

Here you should follow the interviewer check to see that responses at 11a are on reference card A.

The responses have to be exactly as on reference card A to warrant a code 1 at 11b. For instance, depression is not on card A so 11b should be coded 2; manic depression is on card A so 11b should be coded 1.

Similarly, if outcome on front page is 02 or 03, you should refer to question 13b or 14b, page 7.

Here you should follow the interviewer check to see that responses at 13a or 14a are on reference card B.

The responses have to be exactly as on reference card B to warrant a code 1 at 13b or 14b. Notice at the bottom right hand corner of reference card B the terms 'antipsychotic medicine', 'anti-psychotic depot injections' etc are general terms which are acceptable and in such cases you would code 1 at (b).

If outcome on the front page is 04, you should refer back to question 17b, page 8.

Here you check the responses to 17a against reference card A.

If outcome on the front page is 05, you should refer back to section P. This does not apply for proxy interviews.

Here you should check section P, pages 43 to 45 to see if the informant really has been screened positive as should be indicated at P6. There is no need to take account of any interviewer comments, you only need to check that the required codes have been rung.

Similarly

If coded 08 (proxy interview) check q4b, page 47

If coded 09 (proxy interview) check q5(b), page 47

As the outcome is multi-coded you may have to check all of the above points

If you find any errors where interviewers have coded 01 to 05 on the front page where they should not have, please notify Research so that follow-up interviews with psychiatrists can be stopped.

General Notes

1. The highlighted areas on the master schedules show the questions which are to be coded manually before despatch to Data Prep Use this document in conjunction with the Coding Instructions
2. Look for comments on all pages and refer to S/V where they may conflict with a ringed precode, or reveal misinterpretation of the question.
3. Use blue pencil for recoding/amending interviewer codes.
Use lead pencil for coding from a frame and for ringing entries.
Use a red biro for editing.
4. For each interview, check that there is an A Schedule, F check card, B or C Schedule, and a D Schedule.

Check that all documents have the same serial number. Refer discrepancies to S/V.

Note - a "Partial" B or C schedule is acceptable where at least one section has been completed.
5. Proxy Interviews

These will be taken where the informant has a mental or physical illness which makes the subject interview impossible.

A and B or C Schedules only apply.
6. Check that the interviewer's Authority Number has been entered on the front of the A Schedule.
Resolve blanks by referring to other interviews in the delivery, or by consultation with Field Branch.

N 1361

A - SIFT SCHEDULE

Front page - interviewer code

Check that the appropriate B or C Schedule is present, according to the code(s) ringed at this question.

Note that codes 01-06 can be multicoded, as can 07-10, and that they are mutually exclusive.

Resolve NA's from the codes ringed at relevant questions in the accompanying documents

False negative New SC 13

Note - this code will be used where none of the criteria for codes 01-10 apply, but the interviewer feels that the informant qualifies for a "long" interview.

N. 1362

Note - codes 11 and 12 also go to a "long" schedule on this sample.

Q2 Person number

Check that this has been ringed for each member of the household

Relationship to selected informant

NB Selected informant should always be on the top line and aged from 16 to 64 years

Code all members from the following frame:

	<u>SC</u>
Spouse (marital status = 1)	01
Cohabitee of selected informant - common-law wife (incl wife/husband/fiance/fiancee/boyfriend/girlfriend if marital status = 2)	11
Children of either sex (incl step or adopted or non-related foster)	02
Son-in-law or daughter-in-law	03
Parents incl step parents	04
Parents-in-law (ie parents of spouse/cohabitee)	05
Brother or sister (of selected informant)	06
Grandchildren (of selected informant)	07
Other relatives by blood, marriage or adoption	08
Non-relatives (boarder, friend, housekeeper, son's girlfriend etc)	09
NA (and relationship cannot be deduced)	99

Place the code in the OFF USE box in line with the relevant person and ring

If relatives have been legally adopted, code the relationship as children

eg Selected informant legally adopts grandchildren, code relationship as 02 not 07

Age now

Refer NAs to Field Branch.

Marital Status

Resolve NAs by referring to relationship details. If not possible leave as NA.

Family Unit

Ring the number. If the interviewer has omitted to record this, code from the notes following

A family unit can be.

- * a married or cohabiting couple;
- * a married or cohabiting couple/lone parent and their never married children providing these children have no children of their own;
- * one person only, a divorced daughter without children.

A brother or sister whose parents are not part of the household would form two separate family units. Members of the informant's family unit should be number 1 in the family unit column, the next family unit 2 and so on, eg

Person number	Relationship to informant	Family unit
01	Informant	1
02	Husband	1
03	Son (never married)	1
04	Daughter (never married)	1
05	Mother	2

Person number	Relationship to informant	Family unit
01	Informant	1
02	Husband	1
03	Daughter (never married)	1
04	Sister (widow)	2
05	Brother (married to 06)	3
06	Sister-in-law (married to 05)	3
07	Niece (daughter of 04)	2

Note also:

- a) In general, family units cannot span more than 2 generations, ie grandparents and grandchildren cannot belong to the same unit. The exception to this is where it is established that the grandparent has parental responsibility. In this case the grandmother as 'mother figure' would be in the same family unit
- b) Adoptive and step children have the same family unit number as their adoptive step parents. As in the GHS, foster children are coded as being in their own family unit

Racial or ethnic group

Ring the number. Leave NAs blank.

Q3. Household check

Complete each box as 2 digits and ring the number.

Resolve NAs from details entered at Q2

Q6. Ring the number - 1 digit only.

Q15(a) Ring the number

SECTIONS A - N

In each section the first few questions establish the presence of a particular neurotic symptom in the past month. These questions finish with a line across the page.

For each section which continues after the line to the Interviewer Check -

1. Check that the score is entered at Interviewer Check, or that 0 is ringed. Ring the number.
2. Turn to the Check Card F and check that the score is entered in the appropriate lettered box.

NB Where the section was not 'scored', the check card box should be blank

QK3(b) Examine answers recorded at precode 6 and recode in to existing precodes where possible, otherwise leave in precode 6.

SECTION Q

This section applies to those coded 2 at Q9 on page 5

Q.Q6 Ring the number

Remove any Check Card F or self-completion Schedule D This card and schedule do not apply to Proxy interviews

N 1361

B - LONG INTERVIEW

A1 Check that COMPLAINT NO. has been ringed at the top of each column containing entries.

A1(a) Code complaint from the following frame, entering the three digit code in the OFF USE boxes.

B1 Check that column no. has been ringed at the top of each column containing entries.

B1(a) Code pills, medications or injections from the following frame, entering the 3 digit code in the OFF USE boxes.

The interviewer will have ringed the printed code 1 if the prescribed drug is an injection.

Refer to S/V if more than 8 columns have been used and the interviewer has inserted extra pages.

Exclude - contraceptives

Delete - any entries which are creams, ointments or lotions.

Include - homeopathic medicines.

NA/DK - code 999

B1(b) Mgs (pills) and Mls (liquid medicine) can both be coded as 3 digits in the OFF USE boxes.

eg 10mg - code as 010
5mg - code as 005
225mg - code as 225
5ml teaspoons - code as 005

Notes (1) 100 micrograms = 1mg. Code an amount of less than 1mg as 000. eg 250 micrograms.

(11) Refer to R.O. answers such as "one tablet", "small white pills, DK strength", "standard tablet"

(111) If DK/NA/"DNA" to inhalers (such as Ventolin) - code 000

(1v) If inft DK strength, refer to BNF, coding appropriately where possible, or using code 998 (see notes on next page)

(v) If B1(a) is NA (coded 999), use NA code 999 at this question.

(v1) If strength is more than 1mg code as 997

B1(b) Examples of Code 998

Please note that the following pain-killers have a mixture of ingredients and the tablets have no specific dose. They are all taken as required, every 4 hours, up to a maximum of 8 tablets per day.

Benorylate
Co-proxamol
Co-codamol
Co-dydramol
Distalgesic
Remedeine
Solpadeine

The following heart tablets also have a mixture of ingredients. They are usually prescribed at 1 to 2 tablets per day.

Beta-adalat
Co-betaloc
Co-betaloc SA
Moducren
Prestim
Prestim Forte
Tenif
Tenoretic
Tenoret-50
Trasidrex

The following antibiotics have a mixture of ingredients. The dose can vary between 2 to 8 tablets per day.

Bactrim
Co-trimoxazole
Septrin

NB Refer any problems in using the BNF to the R.O.

B1(b) Injections

Where precode 1 has been ringed at B1(a), enter 888 in OFF USE boxes (strength will not be coded, even if recorded).

Bi(d) Although codes will use the same frame as is given for A1(a), the question here is about condition. In many cases, the answer will be the same as that given at A1(a) - complaint. However, sometimes the medicine given for the complaint causes side-effects, and then another medication is prescribed to overcome the side-effects, thus giving us a second condition

For example - at part (a)

Medicine 1: Chlorpromazine
Medicine 2: Ventolin
Medicine 3: Temazepam

- then at part (d)

For medicine 1: - for schizophrenia
For medicine 2: - for asthma
For medicine 3: - for sleeplessness caused by medication at column 1.

Part (d) would be coded -

Column 1 - code 820 - for schizophrenia
Column 2 - code 014 - for asthma (nothing to do with schizophrenia)
Column 3 - code 820 - for sleeplessness which was caused by taking chlorpromazine therefore the main complaint was schizophrenia.

B1(q) This question covers any other alternative medication or treatment which the informant may have tried for each condition. If several have been taken (or turned down) the interviewer should have recorded the last one.

Code answers from either the frame for

B1(a) - pills

B2(a) - therapy and counselling

or from the following new codes.

List and flag any remaining answers as code 500.

	<u>New SC</u>
<u>Operation</u>	501
incl sinus drained; veins stripped; blood transfusion	
<u>Same medicine but in a different form</u> ..	502
eg injection instead of tablets (and vice versa)	
counselling instead of drugs (and vice versa)	
different forms of tablets	
<u>Herbal remedy/homeopathic medicines/"alternative"</u> <u>medicine or treatment</u>	503
eg evening primrose capsules; homeopathic pills;	
manipulation by chiropractor; offered to go to	
a centre (instead of taking tablets)	
<u>Steroids</u> ..	504
<u>Painkillers</u>	505
incl stronger pain killer	
injection in spine - a long term anaesthetic	
<u>Stronger dose of same medication</u>	506
(excl painkillers - code 505)	
<u>Anti-depressants</u> ...	507
<u>Hospitalisation</u>	508
incl treatment to dry out	
<u>Other answers - List and flag</u> . . .	500

B2 Check that column no has been ringed at the top of each column containing entries.

B2(a) Code answers from the following frame:

SC

ETC (include: Electro-convulsive therapy, electrical therapy	101
Psychotherapy (include: psychoanalysis, analysis, individual or group therapy, hypnosis) Psychodynamic model of counselling; mental health team, Psychiatrist; talking with psychiatrist; therapist calls, "mixing with people"	102
Sexual, marital or family therapy (include marriage guidance, Relate), fertility counselling	103
Art music or drama therapy (include movement), play games .	104
Behaviour or cognitive therapy	105
Social skills training (include anxiety management and relaxation classes), stress clinic, relaxation tape, meditation in a group	106
Recreation and leisure therapy .	107
Industrial therapy and job training	108
Horticultural therapy	109
Counselling (nes) include talking to social worker or community psychiatric nurse or Samaritans, rape crisis centre, "AA", Social Services day centre, talk with Dr, psychologist for counselling, "just talking"	110
Physiotherapy (include hydrotherapy, osteopathy, chiropractice), back clinic	111
Occupational therapy, asthma clinic	112
Radiotherapy (include radium therapy, beam therapy, laser treatment, isotope therapy) .	113
Speech therapy .	114
Ultrasound, TENS electrical machine	115
Alternative therapies (light therapy, colour therapy, magnet therapy, reflexology, herbal treatment, acupuncture, shiatsu, homeopathic treatment, naturotherapy, faith healing, holistic therapy, aromatherapy) ...	116
Dialysis .	117
Help look after someone else .	118
Other answers flag and list .	120
DK/NA .	999

B2(a) Notes

Exclude - therapy to give up smoking
- Lithium clinic

Leave in code 120 - diabetic clinic
- epilepsy clinic
- everyday health problems.

B2(d) Code answers from the frame given at A1(a)

B2(j) As at B1(q), code answers from frames at B1(a), B2(a), or list and flag entering code 500.

C1 Talking to a doctor - ie any GP

- Include
- talking to a GP about a pregnancy
 - at home, in the surgery, at a health centre
 - on the telephone
 - social chat with own doctor
 - picking up a prescription if actually talked to a doctor
 - a doctor at a district HA clinic
- Exclude
- social chats with a friend who happens to be a doctor
 - a doctor at a hospital) covered later
 - a doctor at a special clinic) at 'outpatients' visits

C1(a) Ring the number

Check that consultation no. has been ringed at the top of the column containing entries.

C1(d) Include in precode 2 - "didn't like it"

C2 In-patient stays.

- Include
- stays in rehabilitation centres or detoxification units
 - stays at private hospitals and clinics
 - dialysis patients required to stay overnight
 - stays for sight or hearing problems
- Exclude
- stays for giving birth if no other complications

C3 Ring the number

C3(c) If more than one professional is involved, code the first one who stated the referral procedure.

C4 Check that episode no. has been ringed at the top of the column containing entries

C4(a) Complete entry to 3 digits with leading zeros.

Notes

(1) An in-patient stay lasts from admission to discharge, so if an informant was sent home for a weekend during a spell as an in-patient, this just counts as one spell

(11) If an informant interviewed by proxy is still in hospital, code no of nights to interview date.

C4(c)/(d) Refer to S/V where interviewer notes but no code ringed

C5 Out-patient visits

- Include - visits for treatment or check up either by appointment or by just turning up
- visits to day hospitals, casualty departments, private consulting rooms
- treatment or check ups at day centres
- dialysis patients who do not stop overnight
- Exclude - visits to day centres for leisure and social activities
- dialysis patients who stop overnight

C5(a) Ring the number

C6 Check that column no. has been ringed at the top of columns containing entries.

C6(d) Refer where interviewer notes but no precode ringed to S/V.

C7 Check that the person no. ringed at the top of the completed column(s).
There is no allowance for additional columns. Refer to S/V if interviewer has added data to the right of code 7 column.

Include in code 3 - Informant's case manager.

C8 Refer where interviewer notes but no precode ringed.

D1-7 Check that the entries in boxes are left justified and amend where necessary.

D8-18 Be aware of the event in the main question. If that event happened in the past six months, or was happening in the past six months even though it started more than six months ago, it should be included.

Any other event should be excluded.

Hence a death which occurred 7 months ago would be excluded whereas an ongoing fight with a neighbour which continued into the period of the past six months is included.

NB Ignore any additional coding entered under the grid on pages 24-25 Interviewers may have recorded some ineligible data as a courtesy to the informant.

E1(a)/2(a) If mc give priority to code 1 (share).

E6,7,8,9 Ring this number.

Note - friends or acquaintances may be professionals such as a home visitor or a councillor, if the informant thinks of them in this way The informant can include people living with them who are not by social survey definition in the same household.

F2 This question is single coded, and only the highest qualification is required.

See NOTES following for inclusions and exclusions, and "Level of Qualifications". QM Index Census Codes and relevant survey codes.

NOTES

Include in code 1:

Bachelor, masters and doctorate degrees and university diplomas.

CNAA degrees (granted by the Council for National Academic Awards for degrees in colleges other than universities).

Bachelor of Education degree (B. Ed) - not code 2.

Include in code 2:

SCOBEC (the Scottish equivalent of BEC).

SCOTTEC (the Scottish equivalent of TEC).

Include in Nursing Qualifications - State Enrolled Nurse (SEN), State Enrolled Auxillary Midwife, Registered General Nurse (REG).

- * Exclude in Nursing Qualifications - Nursery Nurses' qualifications (NNEB), Dental Nurses'/Hygienists' qualifications.
- * These should be left (recoded) in code 7.

Include in code 5:

RSA - provided at least one subject is commercial eg commerce, shorthand, typing, bookkeeping, office practice, commercial and company law, cost accounting.

Pitmans - except for their school certificate, which is coded 7.

Regional Examining Union (REU) Commercial Awards, provided that at least one subject is commercial.

REU boards include - East Midland Educational Union (EMEU)
- NW Regional Council for Further Education (NWRAC)
- West Joint Education Committee (WJEC)
- Yorks and Humberside Council for Further Education (YHCFE)
- Union of Lancashire and Cheshire Institutes (ULCI)

GCE and CSE qualifications in clerical and commercial subjects should be coded to their relevant GCE or CSE codes

Include in code 7: (Other Qualifications).-

Certificate of Extended Education
Certificate of Prevocational Training
16+ exam certificate
Local, regional and RSA School certificates
Scottish School Attendance, Leaving or Day School certificates.

Exclude from code 7:

Civil Service Examinations for entrance, promotion, establishment, typing etc

Dancing awards (including ballet qualifications).

Drawing Certificates awarded by the Royal Drawing Society

Driving Certificates and Driving Instructor's Qualifications including Heavy Goods Vehicle Licence.

Fire brigade examinations

First Aid Certificates (delete all Red Cross/St John's Ambulance qualifications).

Forces Preliminary Examinations (to gain admission to university).

Government Training Centre (GTC)/Skill Centre courses or awards unless a recognised qualification eg RSA/GCE was obtained.

GPO telecommunications, telegraphy etc.

Labour Examination (pre 1918). This allowed a child to leave school and start work at 13.

Internal school examinations.

Local Authority examinations for entrance, promotion, etc in Local Authority Service.

Music Grade examination and certificates for learners (eg Associated Board of the Royal Schools of Music).

Ordination/lay preaching qualifications

Play Group leader's qualifications.

Police force examinations

Pre HNC/HND bridging or conversion courses

Prison/Borstal training qualifications

Scholarships other than for GCE 'A' level

Swimming Certificates include life saving and instructors' certificates.

Sports coaching and refereeing qualifications.

Union Membership eg Equity, National Association of Head Teachers IPCS
(Institute of Professional Civil Servants)

If the only qualification is excluded, recode from 7 to code 8

New Code

Single Code

Qualifications obtained outside the UK

9

CODING FRAME FOR LONGSTANDING ILLNESS

Complaint

010 Cancer (neoplasm) including lumps, masses, tumours and growths and benign (non-malignant) lumps and cysts

acoustic neuroma
Neurofibromatosis
hereditary cancer
Cancers sited in any part of the body or system eg
lung cancer, breast cancer, stomach cancer, skin cancer,
bone cancer
All tumours, growths, masses, lumps and cysts whether
malignant or benign eg growth in bowel,
growth on spinal cord, lump in breast,
cyst on eye, cyst on kidney
Wilms tumour
rodent ulcers
sarcomas, carcinomas

011 leukaemia (cancer of the blood)
Hodgkin's disease, Lymphoma

012 Tumour of the brain

013 mastectomy (nes)
hysterectomy for cancer of the womb
colostomy caused by cancer
part of intestines removed (cancer)
after affect of cancer (nes)

Endocrine/nutritional/metabolic diseases and immunity disorders

020 Diabetes -
incl Hyperglycaemia

030 hormone deficiency, deficiency of growth hormone,
dwarfism,
Beckwith - Wiedemann syndrome,
Gilbert's syndrome, gout,
Coeliac disease, water/fluid retention,
phenylketonuria, hypopotassemia, lack of potassium
Cystic fibrosis, hypercalcemia,
Rickets,
Malacia,
Wilson's disease,
Myxoedema (n e s)

031 Underactive/overactive thyroid, goitre

NB Thyroid trouble and tiredness - code 031 only
Overactive thyroid and swelling in neck - code 031
only

032 Addison's disease, Cushing's syndrome

033 AIDS, AIDS carries, HIV positive.

034 Obesity/overweight

Nervous system (central and peripheral including brain)
- not mental illness

060 Epilepsy/fits/convulsions -
incl. grand mal, petit mal, Jacksonian fit, blackouts,
febrile convulsions, fit (nes)

070 Migraine/headaches

080 Other problems of nervous system -
incl. Multiple Sclerosis (MS), disseminated sclerosis
Cerebral palsy (spastic)
Spina bifida
Physically handicapped - spasticity of all limbs
hydrocephalus, microcephaly, fluid on brain
injury to spine resulting in paralysis
paraplegia (paralysis of lower limbs)
partially paralysed (nes)
metachromatic leucodystrophy
Myotonic dystrophy
Guillain-Barre syndrome
Myasthenia gravis
syringomyelia
Bell's palsy
trigeminal neuralgia
neuralgia, neuritis
carpal tunnel syndrome
sciatica
trapped nerve
numbness/loss of feeling in fingers, hand, leg etc
pins and needles in arms
removal of nerve in arm
shingles
restless legs
Motor neurone disease
Muscular dystrophy
Freidreich's Ataxia
Abscess on brain

081 Parkinson's disease (paralysis agitans)

082 Huntington's chorea

083 Alzheimer's disease
degenerative brain disease

084 Brain damage resulting from infection (eg. meningitis,
encephalitis) or injury

085 myalgic encephalomyelitis (ME)
post viral syndrome (ME).
chronic fatigue syndrome

Eye complaints

090 Cataract/poor eyesight/blindness -

incl operation for cataracts, now need glasses
bad eyesight/nearly blind because of cataracts
hardening of lens
lens implants in both eyes
bad eyesight, restricted vision, partially sighted
short sighted, long sighted, myopia
trouble with eyes (nes), eyes not good (nes)
blind in one eye, loss of one eye
blindness caused by diabetes
detached/scarred retina
tunnel vision
blurred vision

100 Other eye complaints -

incl. glaucoma
buphthalmos
iritis
retinitis pigmentosa
night blindness
astigmatism
double vision
colour blind
squint, lazy eye
scarred cornea, corneal ulcers
haemorrhage behind eye
dry eye syndrome, trouble with tear ducts, watery eyes
eyes are light sensitive
injury to eye
eye infection, conjunctivitis
Sty on eye
floater on eye

Ear complaints

- 110 Poor hearing/deafness -
incl. hard of hearing, slightly deaf
conductive/nerve/noise induced deafness
deaf and dumb
otosclerosis
poor hearing after mastoid operation
- 120 Tinnitus/noises in the ear -
incl. pulsing in the ear
- 130 Meniere's disease/ear complaints causing balance problems
vertigo
incl. labyrinthitis, loss of balance - inner ear
vestibulitis
- 140 Other ear complaints -
incl. otitis media glue ear
disorders of Eustachian tube
perforated ear drum (nes)
middle/inner ear problems
mastoiditis
ear trouble (nes), ear problem (wax)
ear aches and discharges
ear infection

Complaints of heart, blood vessels and circulatory system

- 150 Stroke/cerebral haemorrhage/cerebral thrombosis -
incl stroke victim - partially paralysed and speech
difficulty, hemiplegia, apoplexy, cerebral embolism,
cerebro - vascular accident
- 160 Heart attack/angina -
incl coronary thrombosis, myocardial infarction
- 170 Hypertension/high blood pressure/blood pressure (nes)
- 180 Other heart problems -
incl heart disease, heart complaint
cardiac problems, heart trouble (nes)
weak heart because of rheumatic fever
hole in the heart
valvular heart disease
Wolff-Parkinson-White syndrome
Aortic stenosis, aorta replacement
pacemaker implant
pericarditis
Ischaemic heart disease
mitral stenosis
cardiac diffusion
cardiac asthma
heart murmur, palpitations
tachycardia, sick sinus syndrome
hardening of the arteries in heart
tired heart
pains in the chest (nes)
dizziness, giddiness, balance problems (nes)
too much cholesterol in blood
heart failure
St Vitus dance
enlarged heart
atrial fibrillation
ventricular fibrillation
high cholesterol
palpitations

NB Balance problems due to ear complaint = code 130

- 190 Piles/haemorrhoids incl Varicose Veins in anus
- 200 Varicose veins/phlebitis in lower extremities -
incl varicose ulcers, varicose eczema

210 Other blood vessels/embolic -
incl. arteriosclerosis, hardening of arteries (nes)
artificial arteries (nes)
arterial thrombosis
thrombosis (nes)
blocked arteries in leg
Raynaud's disease
pulmonary embolism
intermittent claudication
telangiectasia (nes)
blood clots
Swollen legs and feet
low blood pressure/hypertension
hypersensitive to the cold.
poor circulation
Wright's syndrome
Varicose veins in Oesophagus
Polyarteritis Nodosa

NB Haemorrhage behind eye = code 100

Complaints of respiratory system

- 220 Bronchitis/emphysema
incl chronic bronchitis, bronchiectasis
- 230 Asthma -
incl bronchia asthma, allergic asthma
asthma - allergy to house dust/grass/cat fur

NB Exclude cardiac asthma - code 180
- 240 Hayfever -
incl allergic rhinitis
- 250 Other respiratory complaints -
incl bronchial trouble, chest trouble (nes)
bad chest (nes), weak chest - wheezy
breathlessness
 pneumoconiosis, byssinosis, asbestosis and other
 industrial, respiratory diseases, pigeon fancier's lung
lung complaint (nes), lung problems (nes)
damaged lung (nes), lost lower lobe of left lung
lung damage by viral pneumonia
fibrosis of lung
ulcer on lung, fluid on lung
furred up airways, collapsed lung
chest infections, get a lot of colds
recurrent pleurisy
sinus trouble, sinusitis
rhinitis (nes)
catarrh
adenoid problems, nasal polyps
sore throat, pharyngitis
throat trouble (nes), throat irritation
throat infection
tonsillitis
abscess on larynx
coughing fits
allergy to dust/cat fur
paralysis of vocal cords
Croup

NB TB (pulmonary tuberculosis) - 370
Cystic fibrosis - code 030
Skin allergy - code 390
Food allergy - code 270
Allergy (nes) - code 410
Pilonidal sinus - code 390
Sick sinus syndrome - code 180
Whooping cough - code 370

If complaint is breathlessness with the cause also
stated, code the cause

eg breathlessness as a result of anaemia (code 380)
breathlessness due to hole in heart (code 180)
breathlessness due to angina (code 160)

Complaints of the digestive system

- 260 Stomach ulcer/ulcer (nes)/abdominal hernia/rupture -
incl. gastric /duodenal/peptic ulcer
ulcer (nes)
double/inguinal/diaphragm/hiatus/umbilical hernia
hernia (nes), rupture (nes).
- 270 Other digestive complaints (stomach, liver, pancreas, bile
ducts, small intestine - duodenum, jejunum and ileum) -
inflamed duodenum
weakness in intestines
ileostomy
throat trouble - difficulty in swallowing
Food allergies
oesophagitis
- 271 stomach trouble (nes), abdominal trouble (nes)
indigestion, heart burn, dyspepsia
nervous stomach, acid stomach
- 272 pancreas problems.
- 273 store in gallbladder, gallbladder problems
- 274 liver disease, biliary artesia,
cirrhosis of the liver,
liver problems
- 280 Complaints of bowel/colon (large intestine, caecum,
bowel, colon, rectum) -
incl. colitis, colon trouble, ulcerative colitis
Spastic colon
enteritis
diverticulitis
irritable bowel, inflammation of bowel
polyp on bowel
colostomy (nes)
Crohn's disease
Hirschsprung's disease
frequent diarrhoea, constipation
faecal incontinence/encopresis.
grumbling appendix
- NB exclude piles - code 190
Cancer of stomach/bowel - code 010
- 290 Complaints of teeth/mouth/tongue -
incl. impacted wisdom tooth, gingivitis
ulcers on tongue, mouth ulcers
cleft palate, hare lip
no sense of taste

Complaints of genito-urinary system

- 300 Kidney complaints -
incl kidney trouble, tube damage, stone in the kidney
nephritis, pyelonephritis
chronic renal failure
uraemia
renal TB
horseshoe kidney, cystic kidney
only one kidney,
double kidney on right side
- 310 Urinary tract infection -
incl cystitis, urine infection
- 320 Other bladder problems/incontinence -
incl bladder restriction
bed wetting, enuresis
water trouble (nes).

NB prostate trouble - code 330
- 330 Reproductive system disorders -
incl endometriosis
prolapsed womb
prolapsed (nes) if female
vaginitis, vulvitis, dysmenorrhoea
gynaecological problems
menopause
hysterectomy (nes)
period problems, flooding, premenstrual tension
abscess on breast, mastitis, cracked nipple
damaged testicles
prostate gland trouble
impotence, infertility
Turner's syndrome
pelvic inflammatory disease (female)

Musculoskeletal - complaints of bones/joints/muscles

- 340 Arthritis/rheumatism/fibrositis -
incl. arthritis/rheumatism in any part of the body
osteoarthritis, rheumatoid arthritis, polymyalgia
rheumatica
psoriasis arthritis (also code psoriasis)
Still's disease
rheumatic symptoms
arthritis as result of broken limb

- 350 Back problems/slipped disc/spine/neck -

incl. back trouble, lower back problems, back ache
spondylitis, spondylosis, cervical spondilitis
prolapsed intervertebral discs
worn discs in spine - affects legs
damage, fracture or injury to back/spine/neck
curvature of spine, scoliosis
lumbago, inflammation of spinal joint
disc trouble, laminectomy (removal of slipped disc)
Schuermann's disease

NB Exclude if damage/injury to spine results in paralysis
- code 080

Sciatica - code 080

Trapped nerve in spine - code 080

360 Other problems of bones/joints/muscles -

incl osteomyelitis
brittle bones, osteoporosis
Pierre Robin syndrome
Paget's disease
Perthe's disease
Schlatter's disease
Sever's disease
dislocations eg dislocation of hip, clicky hip,
dislocated knee/finger
fracture, damage or injury to extremities, ribs,
collarbone, pelvis, skull,
hold left arm out flat - broke it as a child,
broken nose, deviated septum
absence or loss of limb eg lost leg in war,
finger amputated, born without arms
deformity of limbs eg club foot, clawhand,
malformed jaw
walk with a limp as a result of polio, polio (nes),
after affects of polio (nes)
Systematic sclerosis, myotonia (nes)
disseminated lupus
hip replacement (nes)
hip infection, TB hip
torn muscle in leg, torn ligaments, tendinitis
bad shoulder, bad leg, collapsed knee cap,
knee cap removed
cartilage problems
frozen shoulder
aching arm, stiff arm, sore arm muscle
strained leg muscles, pain in thigh muscles
stiff joints, joint pains, contraction of sinews,
muscle wastage
Dupuytren's contraction
bursitis, housemaid's knee, tennis elbow,
delayed healing of bones or badly set fractures
weak legs, legs trouble, pain in legs
legs won't go, difficulty in walking
cramp in hand
physically handicapped (nes)
flat feet, bunions
chondrodystrophia
tenosynovitis
conoralatia patela

NB Muscular dystrophy - code 080

370 Infections and parasitic disease

incl. pulmonary tuberculosis (TB)
tuberculosis of abdomen
sarcoidosis (nes)
toxoplasmosis (nes)
viral hepatitis, virus infection
glandular fever
malaria
typhoid fever
tetanus
venereal diseases
thrush, candida, herpes
athlete's foot, fungal infection of nail
ringworm
whooping cough

NB After effect of Poliomyelitis, meningitis,
encephalitis - code to site/system
Ear/throat infections etc - code to site

380 Disorders of blood and blood forming organs

incl. anaemia, pernicious anaemia
sickle cell anaemia/disease
thalassaemia
haemophilia
purpura (nes)
blood condition (nes), blood deficiency
polycythaemia (blood thickening), blood too thick
removal of spleen
removal of lymph gland.

NB Leukaemia - code 010

390 Skin complaints

incl. eczema
psoriasis, psoriasis arthritis (also code arthritis)
dermatitis
epidermolysis, bulosa
pilonidal sinusitis
impetigo
acne
skin rashes and irritations
skin allergies, leaf rash, angio-oedema
skin ulcer, ulcer on limb (nes)
birth mark
burned arm (nes)
cellulitis (nes)
carbuncles, boils, warts, verruca
corns, callouses
ingrown toenail
chilblains
abscess in groin

NB Rodent ulcer - code 010
varicose ulcer, varicose eczema - code 200

400 other complaints

sleepwalking
fainting
adhesions
hair falling out, alopecia
travel sickness
nose bleeds
no sense of smell
dumb, no speech

NB Deaf and dumb - code 110 only

401 Insomnia (include sleep problems)

402 Morning sweats, shakes or sickness caused by alcohol

403 Nocturnal sweats caused by alcohol

410 Unclassifiable (no other codable complaint)

incl old age/weak with old age
general infirmity
allergy (nes), allergic reaction to some drugs (nes)
war wound (nes), road accident injury (nes)
weight loss (nes)
after affects of meningitis (nes)
had meningitis - left me susceptible to do other
things (nes)
electrical treatment on cheek (nes)
swollen glands (nes)
embarrassing itch (nes)
glass in head - too near temple to be removed (nes)

411 tiredness (nes), tiredness due to pregnancy, lethargy (nes)

412 Generally run down (nes)

420 Complaint no longer present

NB Only use this code if it is actually stated that the
complaint no longer affects the informant

Exclude if complaint kept under control by
medication - code to site/system

- 800 Organic or symptomatic mental disorders
 - Dementia
 - Alzheimer's Disease
- 810 Mental and behavioural disorders due to drugs
 - Alcohol/heavy drinker
 - Opium
 - Cannabis
 - Sedatives
 - Cocaine
 - Stimulants (include Caffeine)
 - Hallucinogens (LSD, speed, acid)
 - Tobacco
 - Volatile solvents
 - Any mixture of the above
 - Heavy drinker
- 820 Schizophrenia
 - Catatonic schizophrenia
 - Chronic schizophrenia
 - Hebephrenic schizophrenia
 - High schizophrenia
 - Mild schizophrenia
 - Paranoia
 - Paranoid Schizophrenia
 - Schizophrenia
 - Simple Schizophrenia
- 829 Other non-organic psychoses
 - Auditory hallucinations
 - Hallucinations
 - Hearing voices
 - Mild psychosis
 - Neuroleptic
 - Psychosis
 - Psychotic tendencies
 - Schizo - affective disorders
 - Schizophrenic affective disorder
 - Voices
- 830 Mania
 - Hyperactive
 - Hypomania
 - Mania
- 831 Manic depressive disorder
 - Bipolar affective disorder
 - Manic depression
 - Manic depressive psychosis
 - Moods
 - Mood swings

- 832 Depression, post natal depression, "anxiety & depression"
- 839 Other mood (affective disorders)
 - Emotional problems, problems with marriage (nes)
- 840 Phobic anxiety disorders
 - Acrophobia
 - Social phobia
 - Specific isolated phobias
- 841 Other anxiety disorders
 - Panic disorder
 - Generalised anxiety disorder/incl stress and anxiety/nervous tension/bad nerves, agitation (nes)
 - "emotional anxiety worry"
- 842 Obsessive-compulsive disorder
- 849 Other neurotic disorders
 - worry (specific), bereavment (nes)
 - post traumatic stress disorders
 - stress related headaches
 - hyperventilation syndrome
- 850 Behavioural syndromes associated with psychological disturbances and physical factors
 - Anorexia nervosa, Bulimia nervosa
 - Sleep disorders (non-organic), nightfrights
 - Sexual disorders (non-organic)
 - Other behavioural syndromes
- 860 Personality disorders
 - Habit and impulse disorders (gambling, stealing, fires)
 - Gender identity problems
 - Disorders of sexual preference
 - Other personality disorders
- 870 Mental retardation
 - backward/slow/mental handicap
- 880 Disorders of psychological development
 - Speech and language disorders
 - Reading, spelling or arithmetical disorders
 - Autism
 - Other disorders of psychological development
- 890 Childhood disorders
- 899 Unspecified mental disorder
 - illness in the mind, mental illness
 - mentally disturbed
 - stress, distress
 - nervous breakdown (n e s), nervous exhaustion
 - neuropathy
- 999 NA/Refused/unclassifiable
- 998 Preventative medicine - eg vitamins

SMOKING SECTION

The interest lies in ordinary tobacco which is smoked. Tobacco or tobacco products which are chewed or sucked, snuff, or herbal tobaccos should be ignored. Amend the coding as necessary.

By 'ever smoked a cigarette, a cigar, or a pipe', we mean just one ever in their life.

This is the informant's interpretation of "nowadays".

Check that 2 digits have been entered or that 00 has been ringed.

Ring the digits.

Use code 99 for no answers.

Use code 98 for those who smoke 99 cigarettes or more a day.

17. Ranges - code the midpoint. Take 'half' to the nearest even number.

2. Hand rolled cigarettes - count 1 oz of tobacco as 40 cigarettes
- count 12.5gr of tobacco as 18 cigarettes
- count 25gr of tobacco as 36 cigarettes

Only convert ounces to cigarettes if the informant has not given the number of cigarettes smoked.

3. Weekly amounts - if the informant can only give an answer in weekly terms, code 1/7th of the total of Q3 and Q4.

'Filter tipped' means cigarettes manufactured with a tip on them. Do not include filtered cigarette holders which some people use.

'Hand rolled' cigarettes can be filter tipped or plain, but it is the fact that they are hand rolled and not manufactured that is important. Code 3 should be ringed for cigarettes that are not manufactured.

If H5 is multicoded or there is an interviewer note saying "50/50 hand rolled and other", priority code 1 over code 2 over code 3.

If H5 is blank it may be possible to establish the correct code from the details given at H6. Note that on the Brand Check list (P) indicates plain.

H6 Which brand of cigarettes do you usually smoke?

Check that a three digit number has been entered or that the interviewer has ringed code 1 and specified details of the brand smoked.

Do not check that the interviewer has coded the brand correctly.

Ring the three digit number.

If the interviewer has not coded the cigarette type code from the Brand Check List.

Code answers recorded at 1 from the Brand Check List.

Use code 777 if an informant smokes no regular brand or someone else's cigarettes and the interviewer has not recorded details of the brand currently smoked.

Use code 888 where there is insufficient detail to code the brand, or the brand does not appear on the Brand Check List. Flag for S/V if unsure whether to use 888. See also Note 4.

Flag and specify code 888.

Use code 999 for no answers.

Notes

1. Tar levels are indicated after the brand on the Brand Check List by letters in brackets.

Therefore:	Low tar level	=	L
	Low to middle tar	=	LM
	Middle tar	=	M
	Middle to high tar	=	MH

2. If an informant smokes two types of cigarette equally - if both brands fall into the same tar level category, code 199, 299, 399 accordingly; otherwise use code 888.
3. Use code 199, 299 etc rather than 888, where there is insufficient detail but it is known from the Brand Check List that the tar level is the same for all cigarettes manufactured under that name eg code Piccadilly (nes) as 299 as all are (LM) (low to middle tar).

Similarly code Consulate (nes) as 199 as all are (L) low tar

Code 888 where tar levels are not indicated or are different for brands manufactured under one name

4. Note that some names may be a brand name or form part of a brand name eg Regal King Size and Embassy Regal; Superkings forms part of several brand names. Benson and Hedges Silk Cut should be coded to Silk Cut.

- H7 How easy or difficult would you find it to go without smoking for a whole day?

Note This is an opinion question - accept what informants say.

FIRST MONTH: FLAG all comments for S/V.

- H8 Would you like to give up smoking altogether?

Note This is an opinion question - accept what informants say.

FIRST MONTH: FLAG all comments for S/V.

- H9 How soon after waking do you usually smoke your first cigarette?

Note The emphasis here is on the usual time that the informants begin to smoke after waking.

Check that only one of codes 1-6 is ringed.

If the question is not coded but there is a note that it is usually eg 5 hours on a weekday and 1 hour on weekends, code the answer for weekday ie code 6 in this case.

In other cases where it varies and the answer can't be coded, leave blank.

FIRST MONTH: FLAG all comments for S/V.

- H10(a) How many cigarettes did you smoke?

Check that 00 has been ringed or that two digits have been entered.

Ring the digits.

Use code 99 for no answers.

If there were variations in the number of cigarettes the informant smoked, code the number last smoked.

- H10(b) How long ago?

Treat the precodes in priority order if comments indicate that more than one code applies.

H11 How old were you?

Check that two digits have been entered and ring them.

Use code 99 for no answers.

If a range of ages is given code the earliest age.

Note that code 00 can only be used if 2 is coded 1.

H12(a) How many cigars do you smoke per week?

Check that 00 has been ringed or that two digits have been entered.

Ring the digits.

Use code 99 for no answers.

Use code 98 for those who smoke 99 cigars or more a week.

H13 Do you smoke a pipe at all nowadays?

This question is only asked of men who have ever smoked. Women are not asked.

14(b) Include in code 4: - specific health problems whether or not they are drink related

- general fears that drinking is bad for health.

16 Frequency

No Answers - Leave blank, then I7 does not apply.

Multicoding - If this occurs, accept the highest frequency code and delete other codes eg Spirits category coded 3 and 4 accept code 3 delete code 4.

Changes in drinking pattern

If there is a note that the informant's drinking pattern over the last 12 months has changed eg during pregnancy, refer to S/V.

Any other alcoholic drinks:

It is necessary to recode answers into the appropriate drink category eg Campari specified, recode frequency code to Spirits category and delete code in 'Any other alcoholic drinks' category. If the frequency has not been answered accept code at the relevant drinks category, unless that is coded 8 then delete code 8 and leave the frequency blank. In other cases accept the highest frequency code if the code recorded here is different from the one shown at the relevant drinks category eg at 'Any other alcoholic drinks' Campari is specified coded 1, recoded to the Spirits category which is already coded 2, delete code 2, recode to 1 and delete code at 'Any other alcoholic drinks'. See also points 7 and 8 at General notes on coding the amount.

Type of drink - Recoding Notes - see next page.

Meths/cleaning fluid etc

It is possible that some informants (most likely in the homeless people sample) will answer in this category.

List and flag these cases.

I6 Recoding notes

Remember to exclude all non/low alcohol drinks.

Shandy category

Exclude: Bottled/canned shandy.

Beer Category

Include: Export, Heavy, Black and Tan, Barley Wine, Diabetic Beer, Home Brew Lager, Special Brew Lager, Lager and Lime, Home Brew Beer, Gold Label, Guinness, Pommagne, Stout, Scrumpy.

Exclude: Non alcoholic lagers such as Barbican, Kaliber. Also exclude ginger beer.

Spirits Category

Include: Cocktails, Egg Flip, all liqueurs, Snowball, Bacardi, Pernod, Sloe Gin, Pimms, Bourbon, Whiskey Mac, Schnapps, Liqueur (nes), Bluemoon (no expl)⁰, Vodka, Rum (and pep), Southern Comfort, Tia Maria, Ouzo/Aniseed, Cherry Brandy, Arak (strong spirit), Irish Velvet, Brandy, 150⁰ Moonshine, Gaelic Coffee, Advocaat, Tequila, Armagnac, Clan Dew, Campari, Malibu, Taboo.

Wine category

Include: Punch, Mead, Moussec, Concorde, Champagne, Babycham, Saki, Cherry B, Calypso Orange Perry, Home made wine, Thunderbird.

Exclude: Non alcoholic wines such as Eisberg.

Sherry, Vermouth category

Include: Cinzano, Dubonnet, Bianco, Ricardo, Noilly Prat, Ginger Wine, Home made Sherry, Tonic wine, Sanatogen, Scotsmac and similar British wines fortified with spirits, Port and Lemon, 20/20.

Please note that home made drinks should be recoded to the appropriate category.

Refer to S/V all answers not covered by the above notes.

I7 Quantity of Drink

Applies if I6 is coded 1-7.

Code the amount as 2 digits.

Ring the number.

If the amount is not given, use NA code 99.

Refer to S/V - any quantities or queries not covered.

The coding of amount represents units of alcohol. 9 gms of alcohol = 1 unit = code 01.

I7 Quantity notes (cont)

	<u>Code</u>
1 pint Shandy (assuming $\frac{1}{2}$ pint beer, $\frac{1}{2}$ pint lemonade)	1 unit = 01
$\frac{1}{2}$ pint beer/stout/lager/cider	1 unit = 01
1 single (1/5th or 1/6th gill) measure of all spirits (including liqueurs)	1 unit = 01
1 glass (2 fluid ozs) Sherry/Martini etc	1 unit = 01
1 glass (4-4 $\frac{1}{2}$ fluid ozs) wine	1 unit = 01

GENERAL NOTES ON CODING AMOUNT

1. If the amount drunk is less than one unit eg $\frac{1}{2}$ pint Shandy (assuming $\frac{1}{2}$ pint beer and $\frac{1}{2}$ pint lemonade) treat as one unit = code 01.
2. Code a teaspoon of Brandy (for medicinal purposes) as 01.
3. Code miniature bottles as 2 units = code 02.
4. If ranges are recorded code the highest amount eg 3-4 pints of beer = 8 units = code 08.
5. Round up other fractions of units eg 1 $\frac{1}{2}$ glasses of Sherry = 2 units = code 02; 1 $\frac{1}{2}$ pints of Shandy = code 02.
6. If the amount varies so much that the interviewer was unable to get a usual amount, code the amount drunk most frequently, which should then relate to the frequency code, or, failing that, as a last resort code the highest amount drunk on one day.
7. If different amounts are given of different drinks within a category, code the amount which relates to the frequency code.

eg Whisky - one or two a month (code 5) - 2 singles
 Campari - one or two a week (code 4) - 1 single

This should be coded as -

Frequency - code 4 (the highest frequency)

Amount - code 01 (the amount relating to the highest frequency).

- eg Sherry, 1 glass, 5 or 6 days) Code 1 glass only.
Dubonnet, 1 glass, 5 or 6 days)

If an amount is not entered in sufficient detail at 'Any other alcoholic drinks' eg 1 glass of beer, assume a minimum amount, in this case 1/2 pint.

9. Beer/lager: If pints and large or small cans are both completed, assume they are alternatives on different days not the same day and code the highest amount eg 6 pints, 7 large cans, 9 small cans - code the highest amount which is 6 pints.

1. Cans of beer/lager etc : Small approx $\frac{1}{2}$ pint (9 $\frac{2}{3}$ fl oz)
= 1 unit = code 01
Large approx $\frac{3}{4}$ pint (15.5 fl oz)
= 2 units = code 02.

2 'large' cans = 03; 3 'large' cans = 05; 4 'large' cans = 06
etc.

- If 'bottle' is recorded and no further details assume it is the
 ‡ pint size.

4. Barley wine/very strong ales : approx $\frac{1}{3}$ pint bottles = 1 unit
= code 01.

5. 330 mls = 13 fl ozs = 2 units
440 mls = 2 units

1. 1 single = $\frac{1}{5}$ gill (Scotland) or $\frac{1}{6}$ gill (England & Wales) = 1 unit = code 01.

328

2. 1 double = $\frac{2}{5}$ gill (Scotland) or $\frac{1}{3}$ gill (England & Wales) = 2 units = code 02.

Treat as a double 'large' measure of spirits.

3. A bottle of all spirits = $26\frac{2}{3}$ fl ozs.

1 fluid oz = 1 UNIT.

Therefore 1 bottle = 27 units = code 27
 $\frac{1}{2}$ bottle = $13\frac{1}{2}$ units = code 14
 $\frac{1}{4}$ bottle = 7 units = code 07

4. A gill of all spirits = $\frac{1}{4}$ pint = 5 fluid ozs = 5 units = code 05.

Therefore $\frac{3}{4}$ gill = $3\frac{3}{4}$ units = code 04
 $\frac{1}{2}$ gill = $2\frac{1}{2}$ units = code 03
 $\frac{1}{4}$ gill = $1\frac{1}{4}$ units = code 02
 $\frac{1}{5}$ gill = 1 unit = code 01

NB. $\frac{1}{6}$ gill (single in England and Wales) is also treated as 1 unit = code 01.

5. Teaspoons/tablespoons : 4 teaspoons = 1 tablespoon.

1 British measuring tablespoon = $\frac{1}{32}$ imperial pint.

Treat as 1 single up to 4 teaspoons or 1 tablespoon.

Refer any other measure by spoon to S/V.

6. Cocktails : Assume a single measure (1 unit = code 01) unless further details are given.

Amounts of Sherry, Martini etc

1. A schooner/large glass = 2 units = code 02.

2. 1 bottle sherry/port = $26\frac{2}{3}$ fl ozs.

1 bottle Martini/Vermouth = 75 cls = $\frac{3}{4}$ litre = 26.4 fl ozs.

2 fluid oz = 1 UNIT

Therefore 1 bottle = $13\frac{1}{2}$ units = code 14
 $\frac{1}{2}$ bottle = 7 units = code 07, etc.

Amounts of Wine

1. 1 glass = 4-4½ fluid ozs = 1 unit = code 01.
2. 1 standard bottle = 1 x 70 cl/or 75cl bottle wine = approx 6 glasses = 6 units.

Therefore ½ bottle = 3 units = code 03
 1/3 bottle = 2 units = code 02
 ¼ bottle = 1½ units = code 02

if the size of bottle is not recorded, assume standard size.

3. 1 litre bottle = 35.2 fl ozs = approx 8 glasses = 8 units.

Therefore ½ bottle = 4 units = code 04
 1/3 bottle = 2⅔ units = code 03
 ¼ bottle = 2 units = code 02

4. A carafe of wine = 1 standard bottle = 6 units.
5. 1 pint of wine = 20 fl ozs = approx 5 glasses = 5 units.
 Therefore ½ pint = 2½ units = code 03, etc.
6. Babycham = 1 bottle (3½ fl ozs) = 1 UNIT = code 01.
7. Cans of wine = 25cl = 2 units = code 02.

D

SELF COMPLETION

All **subject** interviews, whether on a B or a C schedule, should also have a D schedule.

If the D schedule is missing, insert a blank one, filling in Region, Address and H/hold number.

(At the editing stage, if this omission was not noticed at the coding stage, add in Rec 34, seq 01, 02, 03 and Rec 35 seq 01 and 02).

Look through the questionnaire to make sure that it is clear enough to be keyed. Some tidying up may be necessary eg informants may tick by the sides of boxes, or write 'Yes' or 'No' instead of ticking.

Page 8 Q1(b) Ring the number - 2 digits.

LEVEL OF QUALIFICATIONS

The Department of Education and Science provides gradings of each qualification in terms of academic level as follows:-

- A Level denotes higher degrees
- B Level denotes first degrees and qualifications of equivalent standing.
- C Level denotes advance (ie above GCE 'A' Level) qualifications but below graduate standing.

PRE-CODES BY LEVEL

LEVEL		<u>Single Code</u>
C	<u>City and Guilds - Full technological/Part III</u>	2
C	<u>HNC, HND, BEC/TEC, BTEC Higher certificate or diploma</u> .	2
C	<u>Nursing Qualifications</u>	2
C	<u>Teaching Qualifications</u>	2
B	<u>Level B Qualifications from Universities, other educational establishments and professional institutions</u>	1
B	<u>University of CNA First degree</u>	1
A	<u>University of CNA Higher degree</u>	1
C	<u>Level C qualifications from Universities, other educational establishments and professional institutions not elsewhere classified</u>	2
ALL		
LEVELS	<u>All foreign Qualifications</u>	9
below		
C	<u>Other Qualifications</u>	7

KEY TO 1991 CENSUS QUALIFIED MANPOWER INDEXES

Qualifications are listed in the QM Indexes alphabetically by awarding institutions, except in the Medical and Teaching Qualifications index.

Each acceptable qualification is given a 3 digit qualification code and a 3 digit subject code (R = 'all' subjects; T = Teachers).

'Unacceptable' qualifications are identified by Code X - these are not coded on the Census but will be coded 8 unless covered by specific instructions eg deletions, another qualification is coded.

Levels: Level A covers qualification codes 001-007
Level B covers qualification codes 008-255
Level C covers qualification codes 256-478

QM Indexes

<u>Census codes</u>		<u>Survey SC</u>
001-007	Higher degree	1
008-013	First degree	1
*014-255	B level University, other college or professional qualification	1
256, 288, 289	C level Professional	1
257-262	HNC/HND etc	2
263-287, 290-292	Teaching	2
293-310	Nursing	2
311-458, 460-471, 475, 477	C level University, other college or professional qualification	2
459	City and Guilds Full Technological	2
472-474	Foreign Qualifications (below 8)	9
478	Teaching	2

*Certain Arts teachers qualifications (095, 245 or 255) and ALL post graduate teacher's certificates are excluded from 1 and coded 2 - Teaching.

F3(a)(1) NAs are not acceptable at this question. Try to resolve coding from any interviewer notes (see pages 47-49 of the interviewer instructions).
Refer queries to S/V.

F12 A/B Ring the number (2 digits)

F13(a) The number of days taken off work due to sickness should include weekends which fall within a period of sickness.

Ring the number.

F18 Ring the number.

F19(a) If M.C., give priority to code 1.

F20(a) This question is only single coded. Watch for any multi-codes of precode 1 and precode 2.
Precode 2 has priority, so in this case, delete precode 1.

F25(a) Ring the number (2 digits).

F26 Ring the number (2 digits).

Include as spouse - boyfriend, partner, fiancée, fiancée, co-habitee.

Note

If informant's spouse is out of the household - eg working abroad - code spouse no. = 99. Section should be completed.

F26(a)(1) See instructions above for F3(a)(1).

G4/4(a) Ring the number (2 digits)
Spouse out of the household = code 99 (and section completed)
incl as "Spouse" - boyfriend; partner; cohabitee; fiancée; fiancée.
